Dear Mr. Jones:

This is in reply to your letter of October 18. Attached is a print of the runoff record for the 1966 water year for the East Fork of the Kaweah River near Three Rivers. The gaging station is operated by the U. S. Geological Survey and the runoff data collected are published annually in a report entitled "Water Resources Data for California, Part 1, Surface Water Records, Vol. 2, Northern Great Basin and Central Valley".

If we can be of further assistance please let us know.

Sincerely yours,

Carl L. Stetson
